

## Topic

We will be learning about how to look after penguins, how animals survive at the North Pole and how the weather can be dangerous. We will learn about how we can protect ourselves and will also be using the iPads to record our own weather forecasts.

## Mathematics

In Mathematics we will begin by learning about how to tell the time to the hour and the half past, and learning the language of heavier and lighter with regards to mass.

## Science

Our focus will be all about animals and learning to categorise them: reptiles, birds, fish, amphibians, mammals or invertebrates.

## Physical Education

In PE we will be starting dance, using different creative shapes and move in time with the music.

Please continue to send children into school full PE kit. House team colours only, and black or navy bottoms. If your child doesn't have a house team coloured jumper a regular school jumper is expected.

### Spring 1 2025 Poles Apart

## Art/Design and Technology

We will be learning about the northern lights. We will look at different artists and the techniques they have used to create their artwork.

## Computing

This half term we will be developing our knowledge of the PC and developing our keyboard skills.

## English

In phonics we will continue to develop our reading skills and learn new sounds and spelling patterns. Look out for a new practise phonics test – the real test is in June. It's important that children are reading at least 3 times a week at home.

In English we will be reading
