

Monday 18th March 2024

Dear parents/carers,

British Science Week – Poster Competition

This year it is the 30th anniversary of British Science Week and to mark the event we would like the children to create a poster on the theme of ‘Time’.

The posters could be showing how a certain type of technology has changed over time, or even the advancement of time-telling technology itself. Budding poster makers could also go futuristic and show how they think the world might look in years to come, or perhaps look at nature – lifecycles, lifespans, evolution and hibernation – nature is full of timely topics. Teachers will be sharing some information in their science lessons to support the children.

We will be submitting 5 entries from our school to a competition which will be judged by Members of the British Science Association.

We would like children to send their entries to Mr Stunt by **Tuesday 26th March 2024**.

Entries must be on one page of A4 or A3 paper and cannot be 3D. If the posters have flaps, it must still make sense without the flaps being lifted.

Yours faithfully,

Mr Stunt
Year 6 teacher and Science lead
